

DSSAK and SAKS symposium DOS congress 2016

Hotel Radisson Blu – Copenhagen

Wednesday 26.th October 2016

kl. 13:00 – 16:00

Room: Stockholm/Copenhagen

Pathologies and surgical treatment options of the small shoulder joints.

Chairmen: *DSSAK: Steen Lund Jensen - SAKS: Torsten Warming*

The sternoclavicular joint – SCJ.

13:00-13:25: **The SCJ anatomy, biomechanics, pathologies and imaging.**

*Martin Rathcke, M.D. , Dept. of Orthopaedics,
Bispebjerg Hospital*

13:25–13:45: **Treatment options of the painful and/or the degenerative SCJ.**

*Michael Krosggaard, M.D., ph.d., Professor, Dept. of
Orthopaedics, Bispebjerg Hospital*
Painful conditions of the SCJ. Conservative,
arthroscopic and surgical treatment options.

13:45-14:10: **Mini battle: My preferred treatment of the unstable SCJ.**

Two methods for reconstruction of anterior unstable SCJ using tendon autografts.

Klaus Bak, M.D. , Aleris Parken Private Hospital.

*Martin Rathcke, M.D. , Dept. of Orthopaedics,
Bispebjerg Hospital*

The acromioclavicular joint - ACJ.

14:10–14:30: The ACJ anatomy, biomechanics, pathologies and imaging.

Klaus Bak, M.D. , Aleris Parken Private Hospital

14:30–15:00: *Pause – Coffee in exhibition*

15:00–15:20: Treatment of the painful ACJ in the young and treatment of the degenerative ACJ.

*Knut Beitzel M.D, Dr.med, Dept. of Orthopaedic
Sportsmedicine, Technical University Munich*

15.20-15.30: Discussion

15.30–15.50: Treatment options of the acute and chronic ACJ-dislocation.

*Knut Beitzel M.D, Dr.med, Dept. of Orthopaedic
Sportsmedicine, Technical University Munich*

15.50-16.00: Discussion

Is the preferred method a CC-ligament transfer
(Weaver-Dunn) or a tendon graft?
